# Using JCE Templates

Embedding a YouTube video

1. Click in the JCE text area where you want to embed a video (press enter to create a new line, if necessary) and then click the template dropdown arrow in the toolbar

2. Copy the video ID from the YouTube URL and paste it in the **Video ID** field. **Video Title** is optional.

3. Click **Insert** and JCE will embed the video into the text using the predefined template's HTML.
